has successfully attended the
**Day 6 – Assessment & Evidence of Learning of the
Educast International Online Conference 2026**
held on 11 February 2026

Day 6 focused on rethinking assessment in light of future skills and evolving learner needs. Sessions addressed AI-supported formative feedback, portfolios and micro-credentials, alternative assessment metrics, data literacy for educators, and the design of authentic, competency-based evaluation models. Participants engaged critically with the guiding question:
Grades vs Growth—What should we measure?
